### Off Canvas Menu

#### Off Canvas Menu

This will add an off canvas menu button on all viewports to your header navigation. When this is disabled, the off canvas menu will only be visible on mobile devices.

 Off

This option: Off Canvas Menu turned off turns off mobile canvas menu also.

#### Off Canvas Menu Style

Please select your off canvas menu style here. The "Slide Out From Right Hover Triggered" style will force the "Full Width Header" option regardless of your selection.

#### Off Canvas Menu Dropdown Behavior

Please select the functionality for how dropdowns will behave in your off canvas menu.

#### Off Canvas Menu Add Menu Label

This will add a "Menu" label next to your off canvas link.
